

PROGRAM

NURSING EDUCATION RESEARCH, 6 ETCS

Time and place:

Lectures 5th– 6th November, Seminar 7th November, 2018,

Department of Nursing Science, University of Turku, Turku, PharmaCity, Itäinen Pitkätatu 4, 20520 Turku

Course leader:

Helena Leino-Kilpi, PhD, RN, Professor, Head of the Department, Department of Nursing Science, University of Turku and Nurse Director, Turku University Hospital

Leena Salminen, PhD, PHN, Professor, Department of Nursing Science, University of Turku and University of Eastern Finland

Hannele Turunen PhD, RN, Professor, Department of Nursing Science, University of Eastern Finland

Terhi Saaranen, PhD, Docent, University Lecturer, Department of Nursing Science, University of Eastern Finland UEF

Teachers:

Professor Maria Jirwe, PhD, RN, Associate professor, Department for Health Promoting Science, Sophiahemmet University, Stockholm, Sweden

Post doc Researcher, PhD, Sanna Koskinen, University of Turku

Post doc Researcher Arja Suikkala, University of Turku

PhD Marjorita Sormunen, University Lecturer, University of Eastern Finland

Post doc Researcher, PhD Heli Virtanen, University Lecturer, University of Turku

PhD candidate, researcher (ProComp) Camilla Strandell-Laine, University of Turku

Purpose: During the course, a student will

- 1) orientate with approaches of different areas/topics in the field of nursing education research,
- 2) increase the knowledge of theoretical and clinical learning in nursing education research,
- 3) choose a theme within nursing education research for deeper review with critical reflection,
- 4) apply the chosen theme into own study *or* investigate and analyse how the theme has been applied in scientific nursing literature previously, and
- 5) increase her / his knowledge towards scientific writing.

Credits: 6 ECTS

Learning methods: Specialist lectures, independent readings, written paper and workshop

Literature:

The list of references will be available before the course in the Moodle (*key for Moodle will be send to registered students by 15th of October by e-mail*).

Outcomes and evaluation:

After the course students should be acquainted with main themes in nursing education research:

- 1) aware of different theoretical and clinical nursing education research contents,
- 2) able to apply the knowledge obtained about scientific writing

The course will be assessed in scale: passed / failed. Students evaluate the course according to the evaluation form of the Finnish Doctoral Education Network in Nursing Science

Contact person: Coordinator, PhD Jenni Kankaanpää.

Registration: by 15th October 2018 on <https://link.webropol-surveys.com/S/E33850C24FD2C8B1>

Course Outline:

Monday 5th November, 2018, Pha2, Pharmacy, University of Turku, Turku

- 9.30 – 10 Introduction and orientation
Professor Helena Leino-Kilpi and docent Leena Salminen
- 10–11.30 Research in the field of nursing education in Finland –general overview and discussion
Professor Helena Leino-Kilpi
- 11.30–12.30 Lunch
- 12.30-14.00 Journey from nurse to Associate professor, Maria Jirwe
- 14.00–14.30 Break
- 14.30-16.00 Methodological issues in nursing education research, Associate professor, Maria Jirwe
- 16.00–16.15 Break
- 16.15–17.00 Learning with older people, PhD Sanna Koskinen
- 17.00–17.30 Closing the day Professor Leena Salminen

Tuesday 6th November, 2018 Pha2, Pharmacy, University of Turku, Turku

- 9.15 - 10.15 Digital Competence of nurse teachers and Digital learning interventions in nursing education, PhD Marjorita Sormunen,
- 10.15–10.30 Break
- 10.30–12.00 Patients as partners in clinical education, PhD, post doc-researcher Arja Suikkala
- 12.00–13.00 Lunch
- 13.00–14.00 The competence of nurse students, European survey, Professor Leena Salminen
- 14.00–14.15 Break
- 14.15–14.45 Mobile supervision in clinical practicum, PhD candidate Camilla Strandell-Laine
- 14.45–15.15 Mixed method approach in education – patient education as an example, PhD Heli Virtanen
- 15.15–15.30 Break
- 15.30–16.15 Future education - how it looks like? PhD Hanna-Kaisa Aalto, University of Turku
- 16.15–16.30 Closing the day, Professor Leena Salminen & Professor Helena Leino-Kilpi

Wednesday 7th November 2018 Workshop (Pha2)

- 8.30–15.30 Workshop: students' presentations based on their papers
Timing of the day depends on the number of participating students.
Professor Leena Salminen
- 15.30–16.00 What have we learnt?
Closing the course – evaluative discussion
Professor Helena Leino-Kilpi Turunen & Professor Leena Salminen

INSTRUCTIONS FOR PAPERS AND WORKSHOP

The paper shall be made in English and returned by **30th October 2018** in Moodle and paper copy to docent Leena Salminen (address: University of Turku, Department of Nursing Science, 20014 University of Turku) and

Professor Hannele Turunen (address: University of Eastern Finland, Department of Nursing Science, PO. Box. 1627, 70211 Kuopio)

Written assignment

1. Select a research theme/topic in the field of nursing/health care education. (This can be also the topic of your own PhD study).
2. Describe research in the field of your selected topic.
3. Make a critical analysis and summary of the research in the field of your selected topic.
What are the main strong/weak elements?
What and how should the topic to be studied in the future?

The length of the paper should be between 8–15 pages, font 12, space 2 (+ references).

Questions regarding the written assignment may be addressed to Leena Salminen (leesalmi@utu.fi)
