

Additional instructions concerning rector's decision on supervision of doctoral candidates at the University of Turku

I have on this day decided to issue additional instructions concerning the decision on supervision of doctoral candidates at the University of Turku made on 22 September 2020.

These additional instructions apply to the item titled 'Responsibilities in organising supervision, and appointment of supervisors / Each doctoral candidate must have at least two supervisors. One supervisor acts as the main or UGIS supervisor':

The Faculty may appoint only one supervisor for a doctoral candidate based on application and for a valid reason. The number of supervisors appointed for each doctoral candidate is decided according to the processes and jurisdiction of the Faculty.

These additional instructions apply to all faculties at the University of Turku. The instructions are valid from 1 January 2021 onward, and are appended to the decision made on 22 September 2020.
