CHILD PSYCHIATRY: ASSESSMENT & EPIDEMIOLOGY

Time: Tuesday April 25th, 2017, 8:30-15:30
Venue (CHANGED!): ICT City, room B2033 (2nd floor), Joukahaisenkatu 3, Turku

Department of Child Psychiatry and Faculty of Medicine Postgraduate Education Unit arrange a seminar on assessment and epidemiology in child psychiatry. The event is hosted by Dr. Andre Sourander (Professor, University of Turku) and Dr. Hans-Christoph Steinhausen (Professor, University of Basel, Switzerland, and Professor Emeritus, Universities of Zurich, Switzerland, and Aalborg, Denmark).

Professor Hans-Christoph Steinhausen is internationally acknowledged expert on child psychiatry, clinical work, assessment and epidemiology. His major research themes are developmental psychopathology and epidemiology, neuropsychiatry and genetics, clinical psychopharmacology and evaluation research. During the day, he will give two lectures and consult the University of Turku team.
