

## Programme Specific questions for MDP in Materials Engineering

These questions will be asked on the Application form you will find in [studyinfo.fi](http://studyinfo.fi) after the start of the application period. This document has been created so that applicants can familiarize themselves with the programme specific questions and prepare answers in advance. This is particularly relevant for possible motivation letters and other questions requiring a longer answer. We recommend you draft the answer in advance and then copy and paste the text onto the application form. Please note that unless stated otherwise the answers should be written directly onto the application form and not be added as attachments.

### Choosing the specialisation track

You may choose one specialisation track. Please indicate here your option.

- Health Technology Materials
- Materials of Energy Technology
- Modern Industrial Materials

### Motivation letter

Please tell us why you are applying to the Master's Degree Programme in Mechanical Engineering at the University of Turku, and especially why you are applying to the chosen track.

The motivation letter should be no longer than 5000 characters (including spaces).
