Evaluation of applications

The applications will be assessed by the steering committee of the EXACTUS doctoral programme. If needed, the applicants can be interviewed.

When admitting the right to pursue for a doctoral degree, the eligibility criteria of the applicant must be fulfilled. In addition to the eligibility criteria for doctoral degrees (Universities Act 558/2009, 37§) and the required language skills, the educational and research-related merits, the quality of the research plan, and the research potential based on the application are used as admission criteria. In the selection process, applicant's motivation, merits and completed studies will be taken into account.

In order to be accepted as a doctoral researcher, an applicant is required to have completed the advanced studies in the Master's degree with at least grade "Good" or equivalent (Grade 3 in the Finnish grading system). If this is not the case, or if the subject of the Master's degree differs from the field of research of the intended postgraduate studies, researchers will be asked to supplement their knowledge and skills to achieve the required level. A research director nominated for the doctoral researcher will give a statement of possible required bridging studies in these exceptional cases.

The chosen applicants must have a good knowledge of the English language. A prerequisite for admission is that there is at least two persons who have agreed to act as a supervisor and who fulfils the qualification requirements for supervisors. In addition, the applicant's research topic must fit in with the doctoral programme's research profile.

A doctoral researcher should have a research director, a principal supervisor and at least one other supervisor. The research director should have an employment contract to the department where the major subject of the doctoral degree is based and the title of the research director should be a professor. In an exceptional case, if there is no professor available, an associate professor can be nominated as a research director. The principal supervisor should be a professor, associate professor, assistant professor or adjunct professor/docent and in most of the cases have an employment contract to the University of Turku. Other supervisors should hold a doctoral degree.

Decisions

The Dean/Vice Dean of research affairs of the faculty decides on granting the right to study for a doctoral degree based on the proposal of the steering committee of the doctoral programme and statement of the department / unit. All applicants will be personally informed about the decisions by 5 December 2025.

An admitted applicant has to notify the University of Turku of their acceptance of the study place by 3:00 pm (15:00, Finnish time) on 15 December 2025 according to the instructions given in the admission notification. If the admitted applicant does not give the notification by the end of the allotted time period mentioned above, the applicant forfeits the study place. A person admitted to more than one university or polytechnic degree programme only notifies

the one educational institution at which they choose to accept the study place. Notification, i.e. accepting a study place, is binding and may not be cancelled or changed later.

According to Finnish university legislation, an applicant may accept only one study place leading to a higher education degree in Finland during one academic term (autumn term 1 Aug – 31 Dec or spring term 1 Jan – 31 July). This rule applies to all higher education, i.e. Bachelor's and Master's level degrees awarded by Finnish universities of applied sciences, Bachelor's and Master's degrees awarded by Finnish universities, and Licentiate and Doctoral degrees awarded by Finnish universities. This regulation is not applied to study rights received in transfer student selections, from the Åland University of Applied Sciences, from the Police University College, and from institutions of higher education outside Finland.

The applicants who have completed their prior degree in a country other than Finland and who are granted a study right in this call, need to deliver either the original degree certificates or certified copies of the original degree certificates and their translations to the University of Turku, as instructed in the admission notification, on 6 March 2026 at the latest. If the admitted applicant does not deliver the required certificates by the deadline, they forfeit the study right. [Instructions on delivering certificates and country-specific requirements.](#)
