

Dear all,

Central Animal Laboratory (UTUCAL) opens registration for laboratory animal science course:

- PGS_1542 Kurssi toimenpiteiden suorittajille, (Function A, D).
- PGS_1675 Laboratory Animal Science Course, Functions (A, D) – Education and training for persons using animals for scientific and educational purposes.

Species: Mice, rats (fish, rabbits, sheep, pig, and birds upon request)

The course includes the core modules for functions A (to carry out procedures) and D (killing animals) function and species-specific modules.

Please note that even though this is an online course, you may need to study daily. It consists of video lectures (independent study), mandatory online lectures, and an electronic examination. Depending of your need, it may also include contact demonstrations, and hands-on exercises.

There will be three mandatory live Zoom sessions:

13.9 at 13-15 Course introduction

20.9 at 13-15 Legislation

27.9 at 13-15 Ethics and Animal welfare

Course materials and the registration links for demonstrations and hands-on sessions will be shared in Moodle.

Specific video lectures, quizzes and assignments (defined later) have to be completed before attending the demonstration and hands-on sessions.

Participants from other institutions than the University of Turku will need to apply for visiting / non-degree study right at the University of Turku. Instructions will be sent after the registration period has ended. After the registration deadline you will receive an invoice.

Please note that you will handle live laboratory animals during this course!

Registration period:	5.8.2021 – 6.9.2021
Course period:	13.9.2021 – 28.11.2021
