

Dear all,

Central Animal Laboratory (UTUCAL) opens registration for laboratory animal science course:

- PGS\_1542 Kurssi toimenpiteiden suorittajille, (Function A, D).
- PGS\_1675 Laboratory Animal Science Course, Functions (A, D) – Education and training for persons using animals for scientific and educational purposes.

Species: Mice, rats (fish, rabbits, sheep, pig, and birds upon request)

The course includes the core modules for functions A (to carry out procedures) and D (killing animals) function and species-specific modules.

Please note that this is an intensive online course which requires daily studies. It consists of video lectures (independent study), mandatory online lectures, and an electronic examination. Depending of your need, it may also include contact demonstrations, and hands-on exercises.

There will be two **mandatory** contact lessons:

**26.01.2022 at 13-16**

**02.02.2022 at 13-16**

Course materials and the registration links for demonstrations and hands-on sessions will be shared in Moodle.

Specific video lectures, quizzes and assignments (defined later) have to be completed before attending the demonstration and hands-on sessions.

Participants from other institutions than the University of Turku will need to apply for visiting / non-degree study right at the University of Turku. Instructions will be sent after the registration period has ended. After the registration deadline you will receive an invoice.

Please note that you will handle live laboratory animals during this course!

Registration period:	1.12.2021 – 12.1.2022
Course period:	24.1.2022 – 25.2.2022
