

Neuro-oncological webinar

jointly hosted by FICANWest and Neurocenter Finland

Date: 16.3.2021 **Time**: 12.00 - 15.30

Webinar registration (by March 12th 2021): https://link.webropolsurveys.com/S/2C83149431BEA80B

Schedule

12.00 – 12.15	Welcome words from the organisers.
	Adjunct Professor, MD, Ville Vuorinen, Neurocenter, Turku University Hospital
12.15 – 12.35	Phosphatase targeting of brain cancers.
	Professor Jukka Westermarck, Turku Bioscience Centre and Biomedical Institute, University of Turku
12.35-12.45	Discussion
12.45 – 13.05	Vulnerabilities in glioblastoma stem cells.
	Professor Pirjo Laakkonen, Translational Cancer Medicine Research Program, Faculty of Medicine and Laboratory Animal Centre, HiLIFE - Helsinki Insitute of Life Science, University Helsinki
13.05-13.15	Discussion
13.15 – 13.35	Targeting the DNA damage response in clinically- and surgically-relevant patient-derived models of glioblastoma.
	Ola Rominiyi (Research Fellow), Department of Oncology & Metabolism, University of Sheffield Medical School, UK
13.35-13.45	Discussion
	BREAK
14.00-14.20	Clinical, molecular genetic and translational applications of brain tumours. Adjunct Professor, MD, Joonas Haapasalo, Unit of Neurosurgery, Tampere University Hospital
14.20-14.30	Discussion
14.30 – 14.50	Oncologic treatment of malignant glioma - where do we stand now?
	Professor, MD, Heikki Minn, Department of Oncology and Radiotherapy, Turku University Hospital
14.50-15.00	Discussion
15.00 – 15.20	Research opportunities offered by Auria Biobank.
	Data-analyst, Niina Pitkänen, Auria Biobank
15.20-15.30	Discussion and final words from the organisers.
	Professor, MD, Panu Jaakkola, Department of Oncology and Radiotherapy, Turku University Hospital, Western Finland Cancer Centre (FICAN West)
