Regenerative Endodontics: Materials and Techniques

Materials used in Vital pulp therapy: Clinical implications

9:00-10:00 Reactivity of hydraulic cements. 1. Clinical Implications Prof Josette Camilleri

10:00-10:15 10:15-11:00 Kahvitauko

10:15-11:15 Reactivity of hydraulic cements. 2. in vitro implications" - Prof Josette Camilleri

Lounas:11:15 -11:45

Regenerative Endodontics : Clinical Applications

11:45-13:45 Dentine Replacement Strategies - Current perspectives" Prof Josette Camilleri

13:45-14:00 Kahvitauko

14:00 16:00 Regenerative Endodontics: What have we learned over the last two decades?"

Prof Zafer Cehreli
