

Empowering Learning Environments in Nursing Education

ELENE 7 ECTS

In autumn 2026 in
Turku, Finland

UNIVERSITY
OF TURKU

A comprehensive course consisting of online learning activities and an on-site intensive week at the University of Turku

Online in Zoom

7 September at 15–16 (EET): Orientation to the course
(Group work between 8.9.–8.10.)

6 and 8 October at 12–16 (EET): Pre-seminars

On-site intensive week

19–23 October at the Department of Nursing Science,
University of Turku

The ELENE course aims to enhance the quality of health care education through evidence-based teaching with a focus on digitalization. Participants are expected to

- deepen their understanding of modern learning environments
- explore the diverse opportunities that digital tools and resources offer for enriching teaching
- embrace international collaboration as a valuable part of their work

Requirements: A bachelor's degree in health care is required.
