

EMPOWERING LEARNING ENVIRONMENTS IN NURSING EDUCATION

UNIVERSITY
OF TURKU

ty.fi/eleneip

EleneIP 10 ECTS

Mini intensive course
in Turku, Finland
24.-28.10.2022

Details

Mini intensive course 24.-28.10.2022 at the Department of Nursing Science, University of Turku, Finland

Instruction lesson to the course on 14th September at 15–16 (Finnish time). Pre seminars will be held at 12th and 13th October 2022. International students can participate these seminars online.

The aims are to bring together university students in different countries to ensure high quality nurse education related to evidence-based teaching and outcomes concerning social media as a learning environment in nursing education in multicultural European context.

Learning objectives

1. To deepen understanding of new learning environments of modern learning outcomes
2. To learn to use co-operative teaching and learning methods in nursing education
3. Use of social media in teaching

The expected learning outcomes of the ElenelP course are the competences of new e-learning environments especially of social media.

The bachelor qualification of health care is required.

Free for Masters and PhD students
Price for others: 500 €
