Student associations in Finland

- In Finland student associations play vital part in students' life
- They represent students' interests within their university
- They also organise plenty of events to make sure student life will be unforgettable
- And they operate fully by volunteer work! We have close to 100 actives who handle clubs etc.

What is TuKY?

- **Student association of Turku School of Economics, that was founded in 1950! We have over 2000 student members!**
- **TuKY's goal is to act as a bond between economics students in TSE, promote their interests and offer unforgettable student life**
- ***There are over 35 clubs/teams/committees/subject organizations under us, that organise events and other activities for our students!***
- ***We also organise some of the largest events in Turku and also the largest student event in Finland called Pikkulaskiainen with over 15 000 attendants.***
- ***We also have our own club house (Parkki), where we organize events. It's just 200 meters from TSE.***

Overalls

- Student overalls are a big part of Finnish student culture
 - They are worn at almost every student event.
 - When you attend student events, you earn patches that you can sew onto your overalls to show others which events you have attended
- Traditionally, students' buy overalls from their own student association, as the color and sponsors show other students where you study.
- You can buy either ours or ESN's. Ours are more expensive but also better quality and warmer for winter weather
 - Current price is 57€
 - First chance to buy them is today but you can buy them also later on by sending me a message
