

The student's Peppi in a nutshell

What should you know?

Maintenance break

- NettiOpsu goes into read-only mode on 23 June 18:00 o'clock
 - While in read-only mode, no changes or savings can be made in NettiOpsu or the personal Study Plan, nor can official records be printed
- NB! Save a copy of your personal Study Plan, transcript of study records and registration certificate before the maintenance break**
- Peppi opens on 2 August 2021

What?

- NettiOpsu and the Study Plan system (HOPS) are no longer in use
- The Peppi-system, which interfaces with the Study Guide and the Study Schedule Service (lukkarikone), replaces these

Personal Study Plan

- Make your personal Study Plan up-to-date in NettiOpsu before 23 June and save a copy for yourself (PDF or screenshot)
- Peppi will automatically have a personal Study Plan according to one's major
- Your finished courses will also be shown in Peppi
- Add missing courses to your Peppi Study Plan (HOPS) in August (e.g. minor, language and optional courses). Utilise the saved version of your old personal Study Plan
- Any double courses in the Peppi Study Plan will be fixed later

University enrollment

- Is required to register for courses
- Do it in NettiOpsu from 1 June to 23 June 2021 or in [Oili enrollment and registration](#) service from 2 August to 31 August 2021
- Register in time! The data transfer takes a few days

Course registration

- In Peppi in August, starts on 16 August (Turku) or on 17 August (Pori)
 - Autumn's course schedules will be published in the Study Guide on 15 June 2021
 - The Study Schedule Service (lukkarikone) and the Study Guide work during the summer, so you can plan your autumn's studies during the maintenance break
- NB! You need to register with the University before you can register for courses**
