

The Degree Programme in Primary Teacher Education at the Rauma Campus

Due to the Coronavirus situation, the orientation week program is mainly implemented remotely. On Friday 28th August however, we are on campus in small groups with safety guidelines in mind. We will announce any changes to the program in August. Then we also publish links to remote events as well as small groups. Please follow the situation and the details of the program online. The lectures of the orientation programme are common with the students in the Degree Programme in Early Childhood Teacher Education
