4. Contact information in matters regarding the use of the register	University of Turku Development Services/ Engagement and Impact Email: alumni@utu.fi
5. Purpose and legal basis for the processing of personal data	<p>The purpose of the alumni register is to store the contact information of the alumni network. Members of the alumni register have studied or worked at the University of Turku or Turku School of Economics. The alumni register is mainly used for communication with the alumni (e.g. alumni newsletters, event communication). The alumni register is also used for improving and strengthening the co-operation between the University and alumni.</p> <p>Membership in the alumni register is voluntary. The register is used for managing memberships and operation, as well as relationships and communication with the alumni, and marketing alumni activities and services. Data in the alumni register can also be used for producing statistical data for the use of the University of Turku.</p> <p>The processing of personal data is based on the data controller's legitimate interest.</p>
6. Legitimate interests of the data controller or a third party	The legitimate interest of the data controller is based on the possibility of the University employees to promote societal interaction and maintain connection to former students and employees as described in section 5.

20.6.2018

<p>14. Principles for the protection of personal data</p>	<p>The registered data is stored according to the best practices, good information security and legislative regulations so that it is protected from external parties. The register is protected with user identification and passwords as well as structural and group-specific authorisation. Registers containing personal data can be accessed only by members of personnel who require the use of personal data for performing their work tasks. The system can be accessed only through a protected network connection.</p> <p>An agreement on the terms regarding the processing of personal data, which is in accordance with the EU Data Protection Regulation, has been made with the system supplier (eTaika Oy).</p> <p>The use of the service creates log entries which are used for ensuring the information security of the service, developing the technology of the service, and for detecting, preventing or investigating technical faults or errors (Sections 138,141,144, and 272 of the Information Society Code (917/2014)). The logs are retained for these purposes for the required time period and they will not be used for any other purposes.</p>
